The new home of the California Casket Company. We occupy the entire building, consisting of seven floors and basement ( $67\frac{1}{2}$  by 160 feet). Magnificent Show Rooms on ground floor, which we place at the disposal of all members of the Undertaking Profession.

## INTRODUCTORY

It gives us great pleasure to place in your hands illustrations of our latest designs in Fine Burial Receptacles. Our facilities enable us to supply goods of the highest possible quality and character, and to offer exclusive designs, from the plainest to the most elaborate.

We are splendidly equipped to execute for immediate delivery TELEGRAPH or TELEPHONE orders, having at all times Covering Materials in every known shade and quality, as well as Silks, Satins, etc., plain or brocaded, in endless variety.

**Casket Hardware.**—We carry in stock a large assortment of all grades of hardware, and show by separate catalogue many exclusive patterns that are superior in design, finish and construction.

**Robes and Linings.**—We maintain a large and modernly equipped department for the manufacture of Burial Garments, Linings, Pillows, etc., which is constantly supplied with the latest products of the loom and kept at the highest standard.

**Casket Trucks, Pedestals, Instruments, Candelabra, Gloves, Fluids, Chairs, Rugs, Canopies**—in fact, every article used by the profession—carried in stock, for immediate delivery.

Your patronage respectfully solicited.

CALIFORNIA CASKET COMPANY.

## New Patent State Bronze Casket

Made of Pure Bronze Throughout

Telegraph Word.....BRONZE

Quality .....2495

This material is hard and strong. It is usually known as Gun Metal, and its resisting powers are well known, both as to strength and indestructibility.

This Casket is composed of an outer and an inner top. The outer top removes similar to a Cloth Casket, removing one-third, and also the whole top, thus exposing the inner top containing a full-length Beveled Plate Glass, which rests upon the inner shelf or flange, with a double row of Rubber Gaskets, leaving a groove to receive cement, thus guaranteeing a perfect sealing joint and doing away with thumb-screws on the outer top. The Casket is finished in a dark Oxidized Bronze, highly burnished like a piece of Statuary Bronze. The Handles are made to match. Fully tufted throughout with the finest quality of Satin. It is water and air tight, and has no equal for quality and beauty. Especially designed for Church and State occasions.

We carry in stock size 6 feet 6 inches.

We quote exact manufacturers' prices on Metallic Caskets, and to this price will be added actual freight charges.

	Length	Width Inside	Depth	
No. 16	6-3	21 inches	15 inches	Quality 2149
No. 17	6-6	23 inches	15 inches	Quality 2162

This Casket has an outer and inner top. The inner top is made of metal and finished in Oxidized Bronze, right on the metal; contains a full-length beveled Plate Glass, and seals hermetically. It is made of sheet steel, well reinforced and covered with Black Broadcloth, with massive Oxidized Corners and Extension Handles.

The interior is upholstered with fine Honeycomb Satin Lining, with Pillow to match.

We quote exact manufacturers' prices on Metallic Caskets, and to this price will be added actual freight charges.

To accommodate the increased demand for elaborately carved-corner Caskets, we now carry in stock

Hardwood Boxes, 30, 32 and 34 inches wide inside.

Maxwell Vaults, 31 inches wide inside.

Baker Vaults, 32 inches wide inside.

## The New Baker Improved Burglar-Proof Grave Vault

This Vault locks automatically and without noise, by merely placing the top in position, without the aid of extra clamps. When sealed with cement, it becomes air and water-tight.

## The Baker Vault

This Vault is made of heavy boiler-plate steel and malleable iron. There are ten massive locks on the inside. Every joint is practically welded together by special process of riveting and caulking.

The construction is such that it can be easily and quickly hermetically sealed.

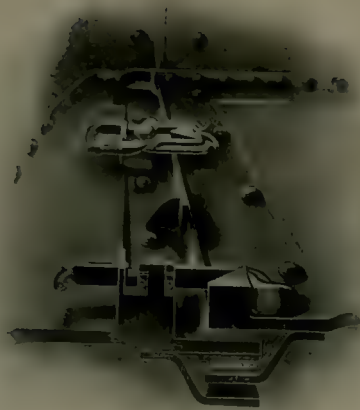

### DIMENSIONS OF THE BAKER GRAVE VAULT

## The Maxwell Sanitary Steel Vault

Made of the best quality, 14-gauge steel. The sides, ends and bottom are put together with interlocking, lead-filled joints of the strongest construction, making the vault absolutely water and air-tight. The top is made complete from a single sheet of steel. The sealing device is simple and effective, easy of manipulation and very strong.

Such as the Light-Running Feature; the Attractive Appearance; the Well-Proportioned (not top-heavy) Feature; the Good, Solid Foundation and Gear under the Body; how and the length of time carried in Paint; how the Wheels are made; the Selection and Treatment of the Material; the High Quality of the Material—all these features combine to make the Sayers & Scoville Car the Car for the Undertaker to buy.

Take for instance the Automatic Truck—this one improvement alone is a big advantage in a Funeral Car.

Isn't it a satisfaction to buy a Funeral Car that has been looked after in the course of construction just as you would have looked after it had you personally supervised the construction, and watched every piece of material that was put into it—a Car with all the latest improvements, built in a modern, well-equipped factory, with years of experience back of it? That's the satisfaction you get when you buy their Car.
